ABOUT LINKIN PARK:

LINKIN PARK emerged as an innovative musical force and are one of the best-selling artists of the last twenty years. Their RIAA Diamond-certified full-length debut, Hybrid Theory, stands out as the “best selling debut of the 21st century,” while landmark sophomore album Meteora

bowed at #1 on the Billboard Top 200 before going 8X-Platinum in the U.S. The band's worldwide sales across the entire catalog eclipses 100 million, and among numerous accolades and honors, they have garnered 2 GRAMMY® Awards, 5 American Music Awards, 4 MTV VMA Awards, 10 MTV Europe Music Awards and 3 World Music Awards. Selling out stadiums worldwide, they've headlined the largest festivals globally and also remain the first and only Western rock band to play a five-stadium tour in China. 2017's *One More Light* marked their fifth #1 debut on the Billboard 200. In 2020, the band celebrated their groundbreaking debut album, *Hybrid Theory*, by releasing a comprehensive 20th anniversary edition super deluxe box set which features their RIAA Diamond-certified single "In The End." In 2023, the band released *Meteora 20th Anniversary Edition*, which topped the charts and featured the newly-uncovered song "Lost." The emotionally charged single was originally recorded during sessions for their second studio album *Meteora* (2003), and soon after its 2023 release, "Lost" hit #1 at both Alternative and Rock radio. 2024 marked the release of their first greatest hits package *Papercuts*, featuring vault track "Friendly Fire" that similarly topped both the Alternative and Rock charts. On September 5, the band made a triumphant return to the top of the charts with "The Emptiness Machine," and will release their 8th studio album *From Zero* on November 15. LINKIN PARK have always prioritized charity and goodwill in an effort to make the world a better place, helping to raise millions over the years for victims of natural disasters. Today, LINKIN PARK's imprint on music and culture continues to expand and magnify.
